Objective of the event: To create the awareness about cyber bullying against girl children and measures for their prevention

Brief summary of the activity: A seminar on "Cyber Bullying against girl children measures for their prevention" was conducted for SE(A) computer students to make the students aware about cyber bullying and its consequences. In addition, the program includes the development of social skills such as empathy, social and virtual communication skills, as well as social responsibility. The session will help to develop the interpersonal skills of the students. Thirty nine students have attended the program and responded in very positive way.

Following are the contents covered in seminar:

- What is Cyberbullying
- What are the factors responsible for cyberbullying
- Why use technology to bully
- Consequences of cyberbullying
- How to deal with the issue of cyberbullying

Expected Outcome: Student can understand the adverse effects of Cyberbullying and their social responsibility towards society.
