Activity Report on
NextNiche Hackathon 2024

Nextniche 2024, hosted at Army Institute of Technology on April 13-14, 2024, was a dynamic hackathon that brought together teams from numerous institutions, including our own ByteBrigade. The purpose of the event was to promote technological innovation and teamwork. Participants worked in intense coding sessions for 24 hours to address real-world difficulties presented as problem statements. Workshops and talks at the outset motivated participants, laying the groundwork for innovative problem resolution.

Throughout the hackathon, teams created prototypes and solutions that demonstrated their technical abilities and creativity. The atmosphere was charged with anticipation as competitors worked to refine their concepts and prepare presentations for the judging panel. The event culminated with teams presenting their projects and competing for awards based on factors such as novelty and functionality.

Nextniche 2024 was a resounding success, providing a platform for networking, learning, and innovation. It offered participants valuable experience and the opportunity to connect with like-minded individuals. As part of ByteBrigade, we were thrilled to contribute and look forward to future editions of Nextniche, continuing to innovate and make a positive impact through technology.

Vision: "To satisfy aspiration of youth force, who wants to lead the nation towards prosperity through techno-economic development"
Mission: "To provide, nurture and maintain an environment of high academic excellence, research and entrepreneurship for all aspiring students, which will prepare them to face global challenges maintaining high ethical and moral standards"

Glimpses of participation
